SMALL FLOCK POULTRY COURSE 2023 - STATS

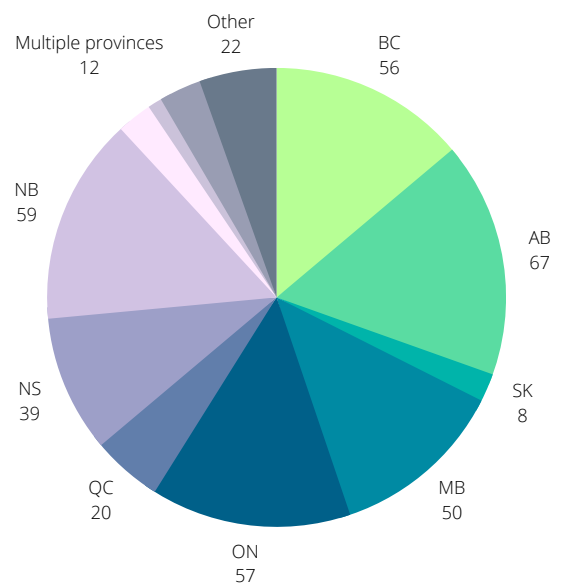

This six part course occurred from April to May 2023 with Drs. Gigi Lin and Victoria Bowes. The course was provided as a component of strengthening Canada's preparedness for **highly pathogenic avian influenza (HPAI)** and to support Canadian veterinarians and veterinary staff on **small flock medicine and production**. Recordings from this course are available upon request.

PARTICIPANT QUOTES

"The Q&As were so informative. I see pet birds all the time but this made me much more confident with poultry."

"Just wanted to send a note of appreciation for this series – this has been among the best CE I have ever done in terms of organization and supplementary materials."

"I wanted to thank you all for a very informative 6 week course. I enjoyed it and learned a lot."
