

CEZD WEEKLY INTELLIGENCE REPORT

This intelligence report is based on the collective rating of information signals by the CEZD community, as acquired and selected from twenty-one disease news sources via the Knowledge Integration using Web-based Intelligence (KIWI) tool hosted on the Canadian Network for Public Health Intelligence (CNPHI) informatics platform. The report is based on the activities of the CEZD Community of Practice and subject to change based on evolving user needs.

Most Relevant Signals 06.24.2019 – 06.30.2019

1

Disease: African Swine Fever (ASF)
Species affected: Swine
Location: Vietnam
Community Relevance Rating: 3.20

Number of weeks in intelligence report: 10

Description: Vietnam has culled nearly 10% of its pig herd to contain an ASF outbreak that has started hitting large-scale industrial farms. Earlier outbreaks have appeared mostly at small household farms but have now started to occur at larger industrial operations, including Phu Son Farm in Dong Nai province near Ho Chi Minh City. The authorities would have culled hundreds of animals at this farm site, which is home to 18,000 pigs.

2

Disease: African Swine Fever (ASF)
Species affected: Swine
Location: China
Community Relevance Rating: 3.00

Number of weeks in intelligence report: 38

Description: After a week of being offline China's Ministry of Agriculture website has been updated with 3 ASF outbreaks since June 20th. These three reports add fewer than 2,000 affected pigs to China's total. One of the outbreak occurred in Qinghai province and the other two in Guizhou province.

3

Disease: Classical Swine Fever (CSF)
Species affected: Swine
Location: Japan, Gifu & Aichi Prefecture
Community Relevance Rating: 3.00

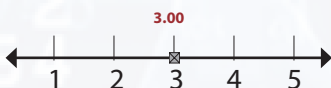

Number of weeks in intelligence report: 17

Description: Another outbreak of CSF has been reported on a farm in Aichi Prefecture, bringing the total number of CSF outbreaks in Japan to 28. The OIE has also reported a tripling in the number of infected wild boar (rising from 218 in March to 655 in their last report) detected in Gifu and Aichi Prefectures.
