

## REPORTABLE DISEASES FOR ALL PROVINCES AND TERRITORIES

### LEGEND

R	Reportable Diseases
N	Notifiable Diseases
IN	Immediately Notifiable Diseases
AN	Annually Notifiable Diseases
OM	Other Diseases Monitored by CFIA
PN	Periodically Notifiable Hazard
(1)	Reportable in cattle/yaks and poultry
(2)	Domestic species of birds
(3)	All toxic substances including drug residues
(4)	2016 Ministerial order testing and quarantine

1. Every Federally reportable/notifiable disease is reportable/notifiable to MAPAQ.
2. Nova Scotia has a provision under the Aquaculture Management Regulations to include a list of Reportable Diseases. These have been drafted but are not yet been declared. The Province continues to provide veterinary services to all farms plus regular routine surveillance program to monitor and react to any diseases of concern that may arise.
3. In Manitoba the following diseases are designated as reportable diseases for the purposes of the Act:
  - a. all diseases that are prescribed as reportable diseases in regulations made under subsection 2(2) of the Health of Animals Act(Canada);
  - b. all diseases listed in Schedule VII (Immediately Notifiable Diseases) to the Health of Animals Regulations, C.R.C., c. 296, made under the Health of Animals Act (Canada);
